

How Talent264 Works

A specialist talent marketplace for the asbestos & environmental sector

Talent264 connects specialist professionals and employers directly — no adverts to write, no CVs to chase, no agency relaying messages back and forth. Employers search a live, anonymised talent pool; candidates stay in control of who they talk to and when.

Free

for candidates, always

The journey

For employers

- Access passive candidates who aren't actively applying anywhere else
- Only pay an introduction fee once a placement is actually made — no subscriptions, no advertising spend
- Talk before you interview — salary, travel, notice period, all sorted directly

For candidates

- One profile, always current — no re-uploading your CV to a dozen sites
- Stay anonymous until you choose to be introduced
- Pause anytime and disappear from searches completely — resume whenever you're ready

Ready to see who's available?

Get in touch and we'll set up your employer account.
